Formation
Office de Psychologie Scolaire

ABOUT US

The service PPLS is composed of psychologists, psychomotor therapists and logopedists.

Partners

We are available to families and school officials to answer any questions or assist in difficulties encountered by children or adolescents in schools concerning their general development.

We intervene following a request from parents or youngsters who want to help their children or themselves regarding their psychological and physical development. We may use a professional interpreter, if necessary.

All services are funded by the canton of Vaud. The consultation rooms are made available by the local municipalities.

OUR SERVICES

Psychology

The psychologists provide specific assistance in dealing with emotional, learning or inter-relational difficulties or behavioural adjustments.

Psychomotor therapy

These therapists use a therapeutic approach using body language. They help in case of specific problems regarding the functional, expressive and emotional difficulties affecting the body.

Logopaedics

Logopedists deal with difficulties related to oral expression and language comprehension (verbal or written) as well as communication issues.

We Offer

- Partnership with schools and networked approach
- Collaboration with teachers
- Interviews (individuals or families), parental guidance
- Evaluation, balance
- Support, treatment (individual or group), therapeutic consultations
